

JAVA

Chair
Art. no.: 2-437

Description:

JAVA's seat and back, which mirror each other, are soft and inviting despite the chair's rigorous design. The light and delicate metal frame gives this spacious chair a lovely sense of balance. It can be used in both private and public spaces, and because of the frame's detailing on the back and the integrated design of the back and seat, it's very suitable for placing anywhere in the room, either on its own or in a group.

Year of design: 2016

Design: busk+hertzog

busk+hertzog was established in Denmark in 2000 by Flemming Busk and Stephan Hertzog, and their successful studio, today located in Lisbon Portugal, has won more than 75 of the most prestigious international design awards, including Red Dot Award - Best of Best, IF Awards and Good Design Awards. busk+hertzog's design characteristics are sculptural, clean lines and a simple expression with mini-mal embellishment, and they often get their inspiration from shapes and lines found in nature.

Flemming Busk has worked with SOFTLINE since 1999, where he won our idea competition with his simple yet brilliant sofa bed SLEEP. He has also specially designed, among other things, the HELLO chair for the world-famous pop star Kylie Minogue.
